

2026

ABOUT THE BRAND

Mumbles is a world of soft plush fur, created to be decorated, personalised and loved. Since 2004, we have been designing high quality plush toys that bring creativity to life for gifting, retail and promotional use. Our range includes classic bears, Zippies, PrintMe's, Squidgy's and the SquidgeMe collection, each made for customisation. From print to embroidery to sublimation, Mumbles plush is built to deliver consistent, premium-quality decoration.

TESTING STANDARDS

All Mumbles toys are safety tested to the European EN71 Toy Safety Standard and carry both CE and UKCA markings on their labels. Each toy is tested thoroughly to ensure it is safe, durable and free from choking hazards. The majority of our styles are suitable for all ages, with any age guidance clearly shown on individual product listings. We continuously review our materials and processes to maintain compliance and provide complete confidence in every Mumbles product.

The full Zippies range is made in 100% Polyester, designed with a zip around the base. They are stuffed with sealed, removable pads to allow for direct embroidery and vinyl, DTF and sublimation printing. The stuffing has 3 different variations depending on the design of the toy. Each style is listed with the relevant code.

HOW TO PRINT

SUBLIMATION PRINT

1. Once the design has been printed, tear the edges of the sublimation paper to avoid impressions being made on the fur.
2. Place design onto the toy and cover with a protection sheet to avoid the fur burning. In addition, place a piece of suitable fabric over the animal to avoid the pile flattening.
3. Heat the press to **185°C and press for 60 seconds**, if you are using additional fabric to protect the pile, press for 90 seconds as the fabric will absorb the heat.
4. Remove the protection sheet and peel off the sublimation paper to reveal the design.

STEP 1
CHOOSE YOUR TOY

STEP 2
PLATE UP

STEP 3
ENJOY

DTF OR VINYL PRINTING

1. For best vinyl results, use a product with a thicker adhesive e.g a flock or glitter, this helps the glue reach the root of the fur.
2. Place design onto the toy and cover with a protection sheet to avoid the fur burning. In addition, place a piece of suitable fabric over the animal to avoid the pile flattening.
3. Heat the press to **185°C and press for 15 seconds**, if you are using additional fabric to protect the pile, press for 30 seconds as the fabric will absorb the heat.
4. Peel off the backing and return the protection sheet before re-pressing for **a further 10 seconds** to seal the design.

HOW TO EMBROIDER

EMBROIDERY

1. Frame up the toy ensuring the fabric is pulled taught and no excess has been caught in the hoop or square.
2. Use a sheet of backing underneath the animal to stabilise the fur.
3. Use a sheet of water soluble aquafilm on top of the animal to let your stitches stay proud and not sink into the fur.
4. Once stitching is complete, the backing can be torn off and the aquafilm can be dissolved.
5. Return stuffing into the toy.

STEP 1
CHOOSE YOUR TOY

STEP 2
UNZIP AND REMOVE THE STUFFING

STEP 3
FRAME UP

STEP 4
ADD BACKING, AQUAFILM AND CENTRE MARK

STEP 5
RETURN THE STUFFING

STEP 6
ENJOY
