## THAT'S FIT FOR THE JOB

For 25 years we've been dressing the nation's workforce. A legacy of workwear excellence that has made Premier the number one name for uniforms in the UK – and a success story in 34 countries worldwide. The reason is simple. We start with the challenge before we design the solution, getting to the very heart of the tasks that face your workforce every day.

Our workwear is trade-tested for quality, durability, and comfort with technical fabrics that are easy to wear and care for. A mix and match wardrobe made for branding to add layer after layer of professional styling. Because whatever the challenge – indoors or outdoors – our mission is to ensure your workforce looks the business.

starts with the right  
uniform**

# SPOTLIGHT ON SUSTAINABILITY

Maximising better materials and processes, minimising impact on the planet.

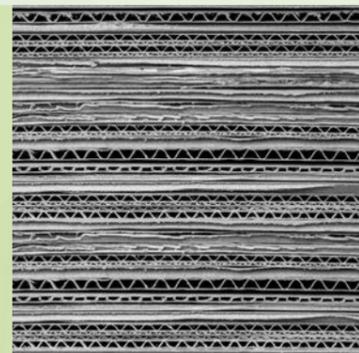

## Better Fabrics

Our clothing is designed to withstand the rigours of everyday wear and we encourage our customers to treat their clothing with respect and care to help extend their life cycle.

## Better Packaging

Since 2021 we have reduced single unit plastic packaging and increased the amount of recycled content within the remaining units.

## Better Sourcing

The recycled polyester and nylon in our garments comes from pre- and post-consumer materials which are certified to the Global Recycled Standard (GRS) or the Recycled Claim Standard (RCS).

The organic cotton we source is certified to the Global Organic Textile Standard (GOTS) or the Organic Content Standard (OCS).

## Better Transport

We are striving to improve the way we import our goods into Europe and are working with key transportation partners to monitor and reduce the CO<sub>2</sub> levels we produce.

## Better Engagement

It's important to us to give back, which is why we donate and sponsor charities that benefit the communities where our products are made. In partnership with the Jaago foundation, we sponsor a class of 40 children at the Jaago School Banani Branch in Bangladesh.

## WHY WE'RE COMMITTED TO BETTER

By introducing better materials and processes into our supply chain we minimise the impact on the environment.

We are forward-thinking and fashion conscious, whilst working to be as environmentally responsible as we can be.

As a business we recognise and embrace the need for change in the industry and are very excited about the developments within our company.

# Ethical & Environmental Policy

## People, Production & The Planet

### Ethical Production

Our manufacturing facilities and supply chains are certified by some of the world's leading organisations. This allows us to monitor and assess workplace standards by working closely with our suppliers to encourage continuous improvements.

### Product Certification

Selected products carry certifications to back up our sustainability claims.

### Initiatives & Associations

We are members of Better Cotton™. We also support Fairtrade® Farmers by purchasing their cotton.
